## Goals

I want to earn experience and accumulate skills in the computer programming industry to work towards financial freedom to have a better live set up for me and my son. To further my skill set I will use Udemy and other online platforms to improve my knowledge in the field of programming and designing.

## EXPERIENCE

### **Smakranar ehf, Reykjavik** – *Crane Operator*

May 2017 – PRESENT

- I have licenses to operate small cranes and drive trucks with trailers.

### **Window Cleaning Contractor, Reykjavik** – *Contractor Window Cleaner*

July 2019 – PRESENT

- Extra job to pay the bills to be able to stay in school.

### **Malbikunarstodin Colas ehf, Hafnarfjordur** – *Group leader*

July 2017 – August 2017

- Worked as a group supervisor
- As a truck driver as well as machine operator

## EDUCATION

### **University of Iceland, Reykjavik** – *Bachelor's Degree*

August 2017 – February 2021 (Graduating)

### **University of Reykjavik, Reykjavik** – *Students Degree*

August 2014 – December 2015

Finished a Students degree equivalent in 3 semesters

## **Extra Courses taken outside of school**

Got my truck and machine licence in a Driving Educational school called New Driving school (Nýji Ökuskólinn)

## **Languages**

I speak Icelandic (Native language), English fluently, German (Basic), Danish (Basic) and Norwegian (Basic).

## **Computer Knowledge**

I have good knowledge on operating systems like windows and Linux and I have good grasp on C#, Python, Java, Javascript, ATOM, Angular, Node.js JSON. All this knowledge has been accumulated through my school work at the University of Iceland.

In my spare time I have been learning on the Unity engine with the help of Udemy courses.

I also have a good understanding on how Github works and how to use it in projects.

## **Personal Projects**

I am currently working on both a personalized website and a Timereport app. Originally got into programming to make games.
